## 2250 AIR CART

# VERSATILE

Amity Air Carts allow you to precisely, yet gently, deliver seed and fertilizer to all Amity air drills, as well as tillage equipment, including strip till bars. Made with high

quality stainless steel Amity air carts are ready to work with any seeding tool or fertilizer applicator on your farm.

## Steerable Axle

The steerable axle on the Amity 2250 Air Cart, combined with axle spacing of 20, 22, 30-inch and 70 cm, allows you to follow your implement or stay between rows for intercrop cover seeding in your standing crop, preserving your top soil throughout the year.

## ISO Variable Rate Meter

Metering is essential to growing the best crop you can. The Amity 2250 Air Cart is standard with ISO compliant ground drive or variable rate metering, so it can easily adapt to the tools you already have.

The shut off slide isolates the meter from the tank.

Easily change meter rolls for specialty applications.

## Stainless Steel Tank

Stainless steel is the perfect choice for fertilizer application. This non-corrosive and durable material will not deteriorate with exposure to sunlight and does not sweat like plastic, so fertilizer will not cake. The 225-bushel (280 cu ft) compartment has a 7-ton urea capacity.

## 2250 Specifications

Height	14'6" (4.42 m)
Width	11'6" (3.51 m)
Length	20'6" (6.25 m)
Fill Height	11'3" (4.43 m)
Empty Weight	7200 (3272 kg)
Capacity	225 bu (280 cu. Ft.) (7928 litre)
Tire Size	380/90R46
Row Spacing	30" (76 cm) or 111" (70 cm)
Fill auger	10" x 21' (25.4 cm x 6.4 m)
Blower drive	Hydraulic
Meter drive	Hydraulic variable rate
Monitor (US or metric)	ISO compliant
Monitored items	Rate Fan speed Bin low Meter empty Ground speed Acres Meter speed Work status Acres (total and field) Product applied total Meter RPM

## 2250 Features

Stainless steel bin  
 225 bu.(7.5 ton) capacity  
 Steerable axle  
 Fully ISO monitor  
 Bin low indicator  
 Meter empty indicator  
 Fan speed  
 Optional 10-inch fill auger  
 Variable rate standard  
 Direct hydraulic meter drive  
 Any number of ground openers  
 Safety light kit  
 Work lights  
 Bin shut off for meter maintenance

Amity air carts can be used with chisel plows, planters, or with strip till applicators, giving you versatility on your farm. All Amity air carts, including the 2250, can be set up to work with the tool you need at the time you need it.

All Amity Air Carts are made with high-quality stainless steel and are the most durable carts on the market

today. Available in several models and capacities, Amity has the best air cart for your farming operation.
